

24 June, 1989
amended 30 Jan. 1995

Please note the following comments on the attached list of Cur Miss Brooks programs believed to be in circulation as of 30 January, 1995

1. The list is alphabetical, not chronological. Many of these shows lack dates and the alphabetical arrangement makes it easier to determine whether two or more titles refer to different programs or are alternative names for the same show.
2. Numbered titles indicate a specific program. Unnumbered titles indicate alternative names for the numbered programs.
3. Underlined numbers indicate the shows now in my collection.
4. Numbers NOT underlined identify programs of which I need copies. An exception is number 28. This is underlined as I have a copy but the sound is so bad I need another. Someone managed to record a detective story on the same track as "Connie Tries To Borrow Money To Fly". The plot-line can be followed well enough to distinguish it from "Planning A Trip To Europe".

There is no number 23 or 39 on the list. These were originally assigned to titles which later proved to be alternative names for other numbered shows and were removed.

As of Jan. 1995 the count for the number of Cur Miss Brooks programs in circulation, including the audio portion of 6 TV shows is 159. The number of titles for these shows is estimated at 412.

Note: This page should be used to replace the original introductory page dated 24 June, 1989 and/or its updated replacement amended 9 Jan. 1994.

OUR MISS BROOKS

An Alphabetical List Of All
Programs Believed To Be In
Circulation As Of June, 1989
Amended as of 9 January, 1994

Primary titles are numbered. Alternative titles are cross-referenced to these. The designation of titles as "primary" is rather arbitrary. It may be the one most often found in dealers' catalogues, the one most suitable to the story plot, the first one to come to the attention of this compiler or it may be the only one known.

Broadcast dates for shows in this series are a problem. Many are missing, occasionally the same date is assigned to two quite different programs, and in some cases more than one date is given for the same show. Where two dates, one day apart, are listed for a given show they usually represent the broadcast dates for that show on the East and West coasts.

Underlined numbers indicate programs which are now in my collection.
